[<-] ► **Lolcow Indictment - KingCobraJFS - Lazy Eyed Satanist Incel/ Longform Streamer Anonymous (You)** 01/04/20 (Sat) 16:33:21 No.14761 [Watch Thread]

Did you ever wonder what would happen if Styxhexenhammer had a retarded lefty brother who streamed his life away eating grease burgers in a dirty apartment?
Well, wonder no more.

I Present you KingCobra JFS, a toxic e-begger cow with assburgers who copes with his unwarranted self-importance by pretending to be a womanizing literally demon wizard on the internet. Imagine someone with a DSP business Model, a light Chris Chan Mindset and the stubborn idiocy of Kittystyle while rocking a hot topic grimy goth look.

Josh has been streaming en masse since at least 2013. Much of his content has been archived and highlighted. He was until i discovered him via Danknet **one of the most obscure cows with a long term dedicated Detractor community i have seen in years**. He was documented for lolcow purposes since at least 2016, with him gaining enough infamy since summer 2018 to be more widely recognized.

Ever since his covered in 2019, Cobra is getting more notorious by the month. If you were looking to get into a new cow or a toxic streamer to detract from, this hairy chameleon provides you with a wealth of unintentional comedy and some of the best Highlight clip channels i have witnessed ever since i got into cow herding. He produces milk practically daily and is easy to find on youtube and facebook, with an engaged and active troll community to boot. Also, dont look into his left eye. It sees the darkness...
